

BuildingBloCS

Singapore's Largest National

for Students by Students

Computing Education Outreach Programme

ACKNOWLEDGEMENT OF INVOLVEMENT AND CONTRIBUTIONS

BuildingBloCS is Singapore's largest student-led computing advocacy organisation. Since 2017, the initiative targets Secondary, Junior College and Polytechnic students to equip them with the skills and knowledge they need to participate in the digital economy to create new technologies which benefit society. BuildingBloCS offers a range of activities and resources to achieve this goal, including workshops, competitions, and online learning materials. More details about our activities can be viewed at <https://buildingblocs.sg>.

This letter acknowledges that **Aung Kaung Myat** of **Bukit View Secondary School** has contributed **300 Values in Action hours**, to the organisation of BuildingBloCS from 2023 to 2025.

Myat has been a great contributor to BuildingBloCS with his technical expertise. Leading the Development (Dev) Department at the 2023 September Conference, he completely rehailed the BuildingBloCS website with a sleek, modern look, and left behind infrastructure that our Dev team still use today. He continued his tenure as the Dev Lead in 2024, updating the website, serving as audio-visual support, and conducted workshops in multiple conferences to teach his peers skills such as NextJS and integrating Gemini API with websites. As part of his contributions in the publicity department in 2024, he assisted in making the BuildingBloCS Branding Kit and designing conference materials, again proving his valued intuition in ordonnance and exemplifying his expertise in designing for different platforms.

Quickly approaching his O-levels year in 2025, after serving in BuildingBloCS for over a year, Myat took a backseat in the preparation of our conferences, dutifully handing off his work as Dev Lead to the incumbent and remaining as an organiser. Even so, he continued turning up at our events to contribute his irreplaceable audio-visual expertise, especially at the 2025 June Conference.

Throughout Myat's two years in BuildingBloCS, he has earned himself a reputation among the organising team for being dependable, competent, and humorous. With an eager heart to give back to society and a unique ability to galvanise any community he is a part of, Myat will surely be a great asset to whichever organisation he chooses to join.

Please feel free to contact the undersigned should you have any queries. Thank you.

Yours sincerely,

A handwritten signature in black ink, consisting of a large, stylized 'G' followed by a series of loops and a horizontal stroke at the end.
